Configurable

Yes, interactive configurator on the product page

[DURABOOK_DM_R10_EN_20251209.pdf](#)[comparison table: tablets](#)[product page](#)**Data notes:**

1. **Not resolved, between the German and English manufacturer editions:** The German manufacturer datasheet (DURABOOK_DM_R10_DE_20251209.pdf) states MIL-STD-461F, the English datasheet for the same device (DURABOOK_DM_R10_EN_20251209.pdf, same date 09 December 2025, same version V2) states MIL-STD-461G. This page uses the value from its own language edition; the other edition is not silently adjusted.
2. **Resolved:** A serial port/RS232 was listed on the product page (offered in the configurator as a selectable „RS232“ option), while the detail table of the [comparison table: tablets](#) showed „–“. The manufacturer datasheet confirms RS232 as an optional interface (I/O interfaces: „Optional serial port (RS-232, 422 and 485: D-sub, 9-pin) x 1“) – the comparison table's „–“ meant „not recorded“, not „not available“.

Equipment and options

Excerpt from the imported manufacturer description on the product page. The R10 is described there as a „New Copilot+ PC“. No prices.
