Data notes:

1. **Resolved:** Brightness was „1,000 nits (optional)“ per the [comparison table: laptops \(German\)](#), while the internal file [include/packages.php](#) stated „1,200 nits (S14I) optional“ – already listed as a known contradiction in the brief. The manufacturer datasheet confirms 1,200 nits as the optional sunlight-readable display; the comparison table was outdated.
2. **Corrected:** The docking connector (41-pin Pogo) was previously listed without qualification. The manufacturer datasheet lists it explicitly as optional equipment, not standard.

Equipment and options

Excerpt from the imported manufacturer description on the product page. The S14I is described there as a semi-rugged AI PC with a dedicated NPU. No prices.

- Camera: 2 MP front camera
- Security: smart card reader and TPM
- Keyboard: backlit membrane keyboard
- Ruggedness: IP53-rated, drop-resistant from up to 1.2 m (4 ft drop)
- Connectivity: Wi-Fi 7 and Bluetooth v5.4

Configuration options

The S14I is one of nine Durabook devices with an interactive configurator. Configurable groups per the product page's configurator: RAM option, storage option, performance, Windows operating system downgrade, display selection, communication, integrated options, integrated options 2 (mutually exclusive options, only one selectable), extended warranty, accidental damage, extended battery warranty, extended warranty – other, power supply and charging, storage upgrades, docking solutions, vehicle solutions, protection and input. Individual selection values and prices are only available in the [configurator on the product page](#), not here.
