Data note on the origin of the core data:

1. The core rows display size through interfaces (eleven of twelve rows) come from the manufacturer datasheet Getac A140 (Getac, as at 31 July 2025). Getac no longer lists the A140 on getac.com; the document was titled "A140 Fully Rugged Tablet" throughout, confirming that this page's previous "Smartphone" classification was wrong – it was corrected to "Tablet" on 08 August 2026. The PDF itself is outdated (the last version mirrored on the Getac CDN, not a current re-release) and was removed from robustbook.com on 08 August 2026. The values taken from it remain unchanged: they are correct and corrected several previously wrong figures on this page.
