Data note (PDF contradiction, resolved for this table):

1. The German manufacturer datasheet (Getac_F110G7-EX_DE_Product.pdf, as at 09 April 2026) states "16GB DDR4" for memory, while the English datasheet (Getac_F110G7-EX_EN_Product.pdf, as at 06 August 2026) states "16GB DDR5". This table follows DDR5: the sister device Getac F110 G7, which shares the same platform, lists DDR5 in both language versions, so "DDR4" in the German F110-EX sheet is treated as an error in the manufacturer document. Which figure is correct can ultimately only be confirmed by the manufacturer.
