Data note (correction):

1. Memory: Until 08 August 2026, this overview stated "8 GB DDR5 RAM" (source: product page/comparison table). The manufacturer datasheet (Getac, as at 06 August 2026) lists 16 GB DDR5 as standard (optional 32 GB / 64 GB); it has been corrected accordingly. The previously stated "optional 2nd storage bay" is not documented in the manufacturer datasheet for this device (unlike the Getac B360G3) and has therefore been removed rather than left unsupported.
