Configurable

[Yes, on request](#)[comparison](#)[table: tablets](#)[product page](#)**Known data contradiction (not resolved):**

1. Getac T800, brightness: the [comparison table: tablets](#) [\(German\)](#) initially gave no value; since 8 August 2026 it states "600 nits". The product page [/en/getac-t800](#) states "600 cd/m² LumiBond® with Getac sunlight-readable technology". Both figures denote the same quantity (the unit nit is equivalent to cd/m²), so the discrepancy originally recorded here no longer exists.
