

UX10

This overview was compiled from the information published on [robustbook.com](https://robustbook.com) and is **not a manufacturer datasheet**. The manufacturer's own specifications are the binding source. As at: 08 August 2026. A manufacturer datasheet for the Getac UX10 is available (Getac, as at 06 August 2026); it is linked below.

Manufacturer datasheet: [Getac\\_UX10G5\\_EN\\_Product.pdf](#) →

## Core specifications

|              |                                                                                                                                                     |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Display size | 10.1 inch                                                                                                                                           |
| Resolution   | WUXGA (1920 x 1200)                                                                                                                                 |
| IP rating    | IP66                                                                                                                                                |
| MIL-STD      | MIL-STD-810H, MIL-STD-461G                                                                                                                          |
| Brightness   | 1,000 nits                                                                                                                                          |
| Processor    | Intel® Core™ Ultra 5 226V (standard, up to 4.5 GHz, 8 MB Smart Cache); optional Ultra 5 228V (up to 4.5 GHz), Ultra 5 236V vPro® Enterprise or 238V |

|                       |                                                                                                                                                                                                                                        |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                       | vPro® Enterprise (up to 4.7 GHz), Ultra 7 256V or 258V (up to 4.8 GHz, 12 MB Smart Cache), Ultra 7 266V vPro® Enterprise or 268V vPro® Enterprise (up to 5.0 GHz, 12 MB Smart Cache) · integrated NPU (Intel® AI Boost, up to 48 TOPS) |
| Memory and storage    | Memory 16 GB LPDDR5X, on package (optional 32 GB) · SSD 256 GB PCIe NVMe (optional 512 GB, 1 TB, or 2 TB)                                                                                                                              |
| Battery               | Li-ion battery 11.61 V, typical 4,070 mAh (min. 3,800 mAh); optional high-capacity battery 10.8 V, 9,240 mAh; optional bridge battery (hot-swap)                                                                                       |
| Weight                | 1.15 kg (tablet, without keyboard dock)                                                                                                                                                                                                |
| Operating temperature | -29 °C to 63 °C (storage: -51 °C to 71 °C)                                                                                                                                                                                             |
| Interfaces            | 5MP front camera (Windows Hello) · 13MP rear camera · DC in jack · USB 3.2 Gen 2 Type-A · 2× Thunderbolt™ 4 Type-C · docking connector (optional: SIM card slot, RF antenna pass-through)                                              |
| Configurable          | <a href="#">Yes, on request</a>                                                                                                                                                                                                        |

## Features and options

Excerpt from the manufacturer description on the product page. No configurator available, no prices.

- Display: LumiBond® technology, capacitive multi-touchscreen, optional dual mode (multitouch + digitizer)
- Connectivity: Wi-Fi 7, Bluetooth v5.4, optional 4G LTE or 5G Sub-6
- Security: Windows Hello facial recognition, TPM 2.0, optional fingerprint scanner or smart card reader
- Expandable with a barcode reader, serial port, LAN, or microSD slot
- Power: standard or high-capacity battery selectable, optional bridge battery for hot-swap
- Accessories: keyboard docks, vehicle cradles, various carrying systems
- 3-year bumper-to-bumper warranty (according to the manufacturer description, including accidental damage)
